

Future-Proofing: Analyzing Survey Data to Identify Tomorrow's Skills

Arif Shaikh

28th March, 2023

OUTLINE

- Executive Summary
- Introduction
- Methodology
- Results
 - Visualization – Charts
 - Dashboard
- Discussion
 - Findings & Implications
- Conclusion
- Appendix

EXECUTIVE SUMMARY

- Present and Future of Tech
 - Current technologies Preferred
 - Future Technology Trend
 - Demographics
- Tech Enthusiastic per country
- Gender gap in jobs
- Age Group using the Tech most

INTRODUCTION

- Aim : Analyzing the Trends in Technologies
- Research Questions Answered :
 - Which Programming Languages are in Demand?
 - What are Popular Databases in Market?
 - Platforms and Web-Frames Preferred by Users
- Audience : Stakeholders, Technical & Human Resource Team
- End-Goal: Keep Pace with Changing technologies, Emerging Skills and Remain Competitive

METHODOLOGY

- Data Collection
 - Job Postings
 - Training Portals
 - Surveys
- Data Wrangling
- Exploratory Data Analysis
- Data Visualization
- Dashboard Creation
- Presentation of Findings

RESULTS

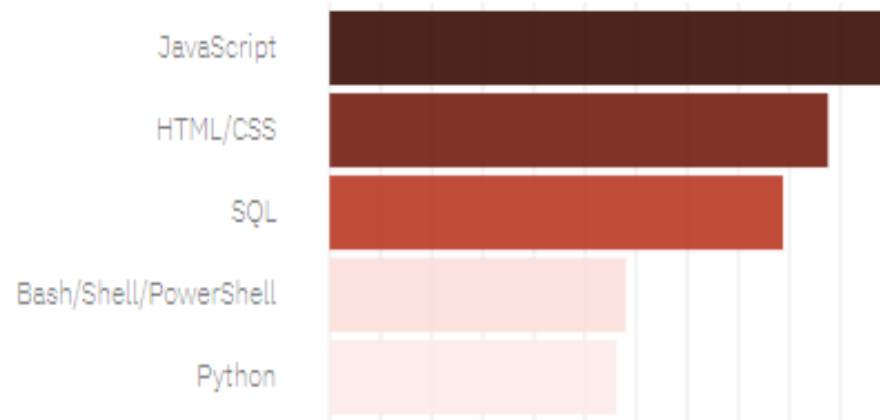

- The Survey Dataset from Stackoverflow was Analysed and Visualization created are included further to help organisation to take data-driven decision
- There are 11552 responses
- It has 85 columns or features

PROGRAMMING LANGUAGE TRENDS

Current Year

Languages Currently in Demand

Next Year

10 Languages Desired next year by

respondents

PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

Findings

- JavaScript, HTML/CSS, SQL will sustain its positions for next few years
- Python and Typescript has high chances of becoming popular next year
- PowerShell drops from Top Charts next year

Implications

- Web development Skills are still in high demand
- Big Data technology in companies still requires SQL
- With AI and ML in rising demand, Python is best choice

DATABASE TRENDS

Current Year

Databases in Demand

Next Year

Desired Database

DATABASE TRENDS - FINDINGS & IMPLICATIONS

Findings

- MySQL most popular
- Microsoft SQL popularity Decreases
- MongoDB and Redis are upcoming favorites
- Emerging Database: Elasticsearch

Implications

- Open-source databases like SQL, SQLite are still preferable in companies
- NoSQL databases will make an impact for storing non-relational data
- Redis supports abstract data types

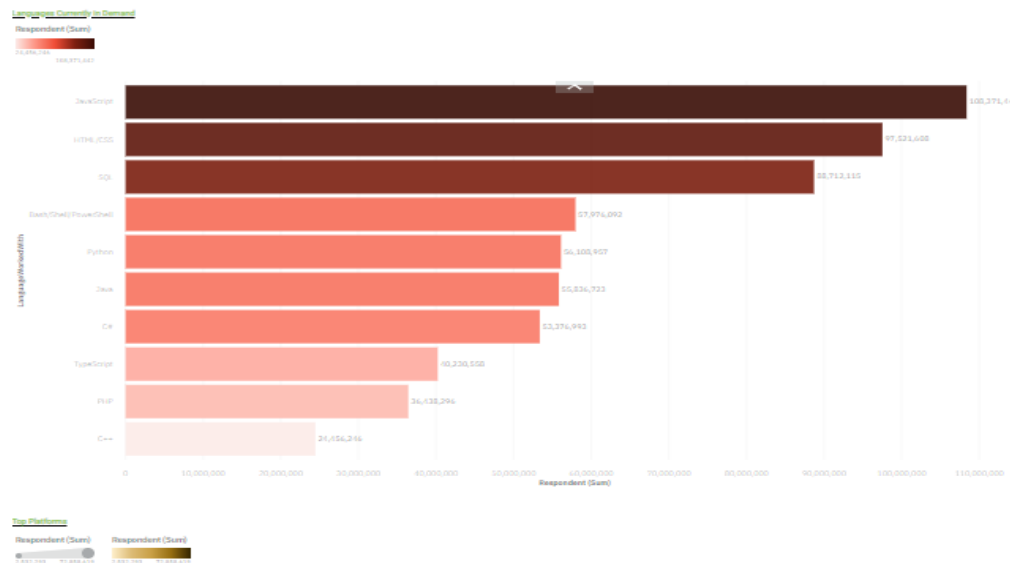

DASHBOARD

Link To Cognos Dashboard:

<https://eu-de.dataplatform.cloud.ibm.com/dashboards/eb9cd316-8d74-40c4-aefe-2037e908416f/view/517ba63f01bd35d656c5f6e407982d537c34260eb0bbd70481847b4909357197a93845c5c82d195fdd115064a2be170cc8>

DASHBOARD TAB 1

AWS Linux iOS Docker Slack
 Android Windows MacOS Heroku
 Google Cloud Platform Kubernetes
 Microsoft Azure Raspberry Pi
 WordPress Arduino

DASHBOARD TAB 2

Top Languages Desired next year for respondents

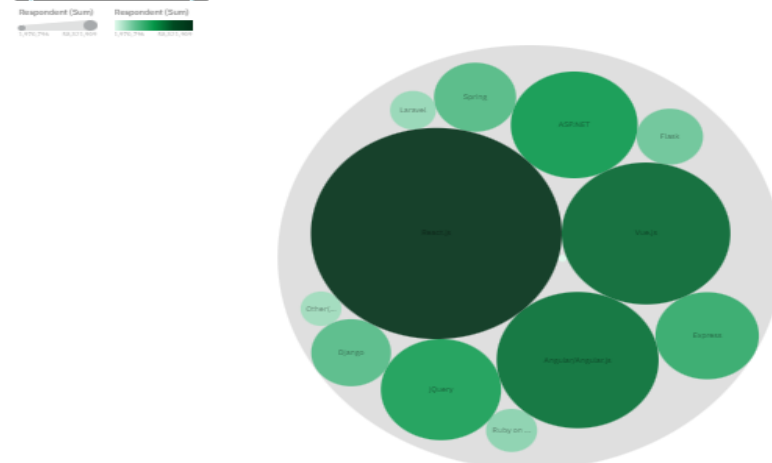

Desired Database

Desired Platform

Respondent's Desired Mobile app for next year

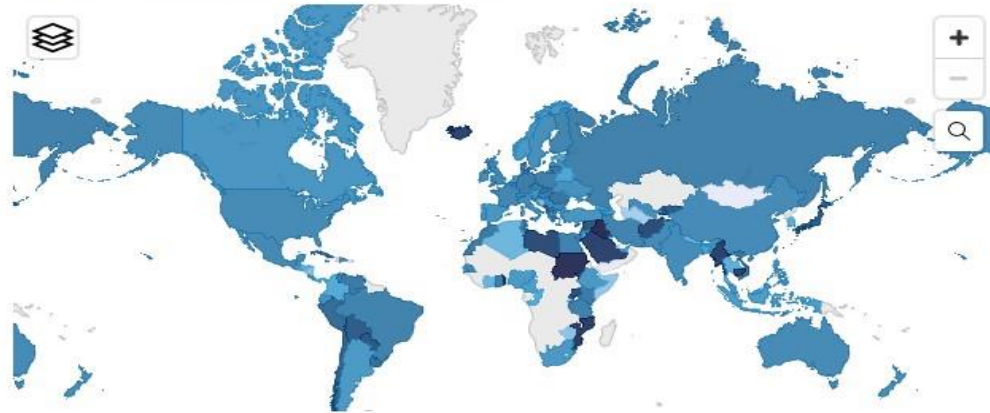

DASHBOARD TAB 3

Respondent classified by Gender

Gender
Woman Man

Respondent Avg(Count) for Countries

Respondent Count by Age

Respondent Count by Gender, classified by Formal Education Level

DISCUSSION

- Current and Future Technology Trends
- Training and Reskilling Workers to Keep Pace with Technology
- Measures to Increasing Female Participation in the Technology Field
- Targeting Developing Countries to Bridge the gap
- Eliminating Employment Discrimination Based on Age and Education

OVERALL FINDINGS & IMPLICATIONS

Findings

- Rapidly Evolving Technology Landscape
- Technology Development Concentrated in Few Developed Countries such as USA
- Gender Disparities in Technology Employment
- Growing Popularity of Platforms like Docker, Slack and AWS

Implications

- Necessity for Companies to Adapt to Rapid Changes and Remain Flexible
- Urgent Need to Promote Technology Spread in Less Developed Countries
- Anticipated Shift Towards Faster App Deployments and Widespread Adoption of Cloud Services in the Future

CONCLUSION

- ✓ Overview of Technology Trends for the Current and Upcoming Year
- ✓ Summary of Popular Programming Languages, Databases, and Platforms
- ✓ Analysis of Technology Industry Demographics
- ✓ Proposed Actions for Advancing Technology Development and Inclusion
- ✓ Future Plan to use Cloud Platform and Machine Learning

APPENDIX

MongoDB

20.92

PostgreSQL

24.81

Redis

19.09

16.37

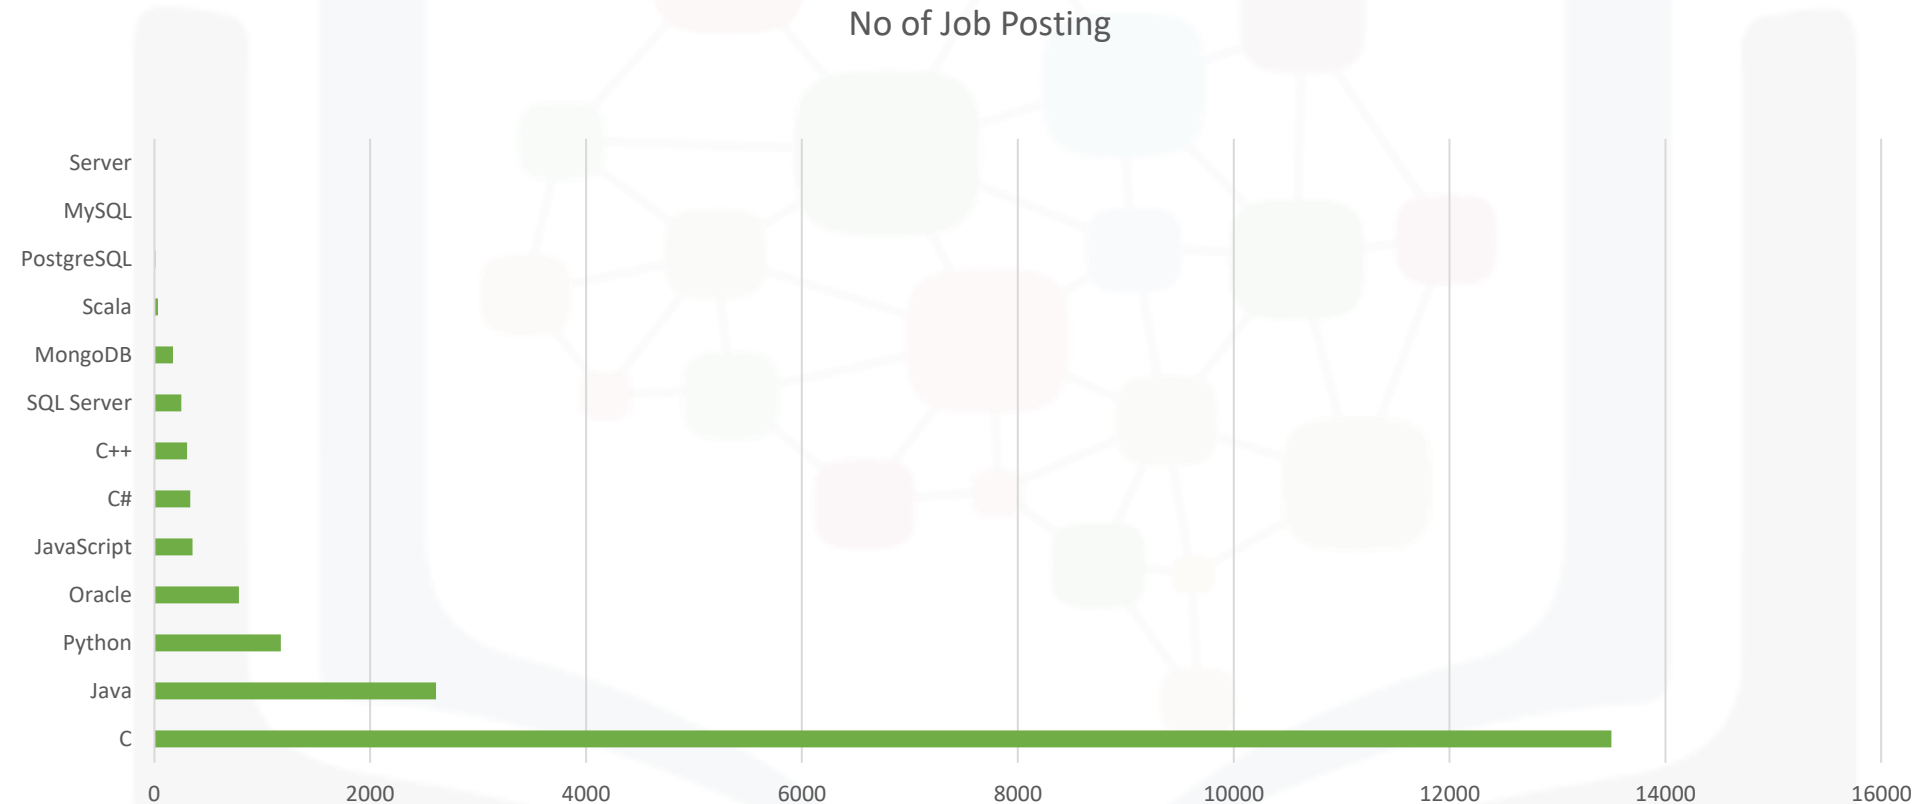

Elasticsearch

18.81

MySQL

Databases Desired next year
